Naguib Mahfouz, who won Nobel Prize!

Born in Cairo in 1911, Naguib Mahfouz began writing when he was seventeen. His first novel was published in 1939 and ten more were written before the Egyptian Revolution of July 1952, when he stopped writing for several years. One novel was republished in 1953, however, and the appearance of the Cairo Trilogy, Bayn al Qasrayn, Qasr al Shawq, Sukkariya (Between-the-Palaces, Palace of Longing, Sugarhouse) in 1957 made him famous throughout the Arab world as a depicter of traditional urban life. With The Children of Gebelawi (1959), he began writing again, in a new vein that frequently concealed political judgements under allegory and symbolism. Works of this second period include the novels, The Thief and the Dogs (1961), Autumn Quail (1962), Small Talk on the Nile (1966), and Miramar (1967), as well as several collections of short stories.

Naguib Mahfouz died on August 30, 2006.

HTML code (1):

The screenshot shows the Visual Studio Code editor interface. The Explorer sidebar on the left displays the file structure for 'mahfouz.html' and 'mahfouz.css'. The main editor area shows the HTML code for 'mahfouz.html'. The code includes a DOCTYPE declaration, meta tags for charset, viewport, and title, and a link to a stylesheet. The body contains two divs for logos, a main content area with a heading, paragraph, and a link, and a second main area with an image and a table of novels.
